Below are 3 tasks, you should complete them all within a 24 hour period. You should start the tasks on the Saturday after you receive this form and this completed application form should be sent to me at 6am on Sunday morning.

Task 1:

You are to masturbate on the hour, every hour for a 5 minute period. It is up to you how you do it but you must not cum. You must find a convenient place wherever you are at the time to complete the task, but it must be done at the specified times. Here are some things that should make it more interesting.

- you are not to wear underwear for the task, at night you should be naked.
- your first wank must be at 6AM on Saturday.
- your day should be as close to normal as possible. Although, you are not allowed to spend all day at home and must be out of the house for at least 5 hours.
- at 13:00 you must insert a butt plug. It is to remain in until the end of the task. If you don't own one, you will need to get one.
- Other than when masturbating, you must not touch your cock at all, even for pissing
- your last wank will be at 5AM the following day. It will be for 30 minutes. You may cum, but you must masturbate for the full 30 minutes. The last 5 should be at "full speed".
- Straight after you complete the task you should apply 3cm of toothpaste to your arse hole (get it right in there) – this is just to please me.
- you should complete the table below.
- If I take you on, punishment will be given for anything I am not happy with.

*(Number of un-allowed ejaculations + total minutes late + 3) x3 = lashes with cane*

Outline any strategies you will use to complete the task.	<p>i plan to set several alarms on my phone. These will be slightly before the times i am supposed to masturbate so that i have time to find a good place to do it. i will vary this depending on the time of day and where i am. i plan to vary the speed at which i masturbate to ensure that i meet the time requirements without cumming.</p> <p>I will set a 5 minute timer on my phone to keep to the required timing. i will carry the butt plug in a bag as i go about my day so as it is with me when i need it at 13:30.</p>

## Task 2:

27 is my lucky number. I do a lot of things in 27s. Find 27 images that you think represent a life in ownership. For each one, write a sentence or two explaining why you chose them. This should be completed in the part of the day where your butt plug is inserted.

A slave's number 1 priority, above everything else, should be its Master.

it should show it's respect at all times & surrenders itself completely to its Master

A good slave should serve its Master domestically to meet Master's expectations, even if it doesn't like the tasks it is set. its reward is to please its Master and that is reward enough.

A slave should expect to be treated as nothing more Master's property. its Master is free to do what he chooses with His property.

it should expect to be kept in a manner that suits its Master & will be grateful for it's surroundings

it should make sure it dresses to in a way Master finds pleasing & is suitable for the situation it is in, both inside the house...

... and out. it will wear its collar or symbol of ownership with pride at all times.

A slave understands that it might be required to wear BDSM gear, such as a harness or butt plug, under its everyday clothing

A slave will keep its hair as Sir requires it. it will shave all of the hair off it's body should Master desire.

A slave should want to look pleasing to it's Master and will realise that this might involve getting tattoos and piercings. Perhaps even implants or brands.

A slave will change how it behaves so as to serve Master in a way that pleases him. it will make sure it doesn't get in Master's way, but will be there for Master when required.

A slave will Eat what it's Master allows it, when Master allows it. It will always ensure that Master's needs are met first.

A slave can expect no privacy. it is the property of it's Master who can rightly expect to know exactly what it is doing and even make a record of it.

A slave will make sure it is clean both inside and out so as not to cause any offence to Master and ensure it is of a pleasing smell and appearance.

A slave will make sure Master is satisfied sexually, making it's arse, mouth and the rest of its body available to Master whenever He requires it.

A slave will understand that, while it is the property of its Master, Master may choose to seek sexual relief with someone else or have more than one slave. Master could also choose to lend the slave to another Master.

A slave will be bound by it's Master. This could be for long periods of time. A Master might choose to bind His slave to perform other things on slave or just because He feels like it

If Master tires of the noise a slave is making he may choose to gag it. A slave may be gagged at any time so as to shut it up.

BoundGods.com

Toys will be used on a slave to please Master and allow Him to have some fun. A slave welcomes the use of toys and Master's right to use whatever toy He chooses at any time He chooses

A slave realises that sometimes Master will receive pleasure by causing pain to the slave. it will take pleasure in experiencing this pain.

A slave understands that sometimes it is good for it to experience humiliation & will gladly be humiliated by it's Master. it understands humiliation can be a form of punishment

A slave will want to expand it's limits. Be it by taking a bigger butt plug, an increased electric current or wearing something more daring in public. Pushing limits will improve the slave.

A slave will be willing and grateful to try things it hasn't experienced should its Master want it to. Like expanding slaves limits, it will improve the slave and displays it trust in its Master

A slave should take any of Master's bodily fluids in any Manner Master chooses. He should be grateful he is allowed to experience them. Master may wish for a slave not to waste any of its own body fluids.

A slave will have to carry out other, non sexual or domestic tasks for its Master. These will improve the slaves performance for it's Master.

A slave should expect to be subjected to a punishment, corporal or otherwise, when it displeases Master in anyway. it might also be punished just because Master chooses to

A true slave should willingly aspire to be whatever it's Master wants it to be. After, all it's arse belongs to it's Master

### Task 3

Fill in the table below. You should give a rating to every item. I am not into everything on the list and it is not a definitive list of everything I enjoy. It is important you are honest as this will form the basis of your potential service to me. When in service to me this will be updated annually. This should be completed in the part of the day where your butt plug is inserted.

N.B. This was last updated February 2021 to keep it relevant. A copy has been placed on the cunt's website so this document won't be updated with it in the future

## Overall Comments

General hard limits are anything that will or could permanently harm the slave, could cause it to be killed, arrested or cause it issues at work/with its immediate family. It believes it exists to serve so although it has little desire to do some of the above activities it would do so and would enjoy them because it knows it is taking part to please it's owner.
